his findings.⁸ Described as the Dean of the field, Kandel wrote to guide a generation of psychoanalysts.

Parking poses perturbing problems

Planning problems at the Ohio campus of Case Western Reserve College last fall included appropriate campus and town plans to deal with the one building in parking lots. A and B. And don't believe that there is nothing available up by the Cleveland Center and all the main building in the vicinity of the technological wing.

According to Bob Gifford, the college registrar, about 10,000 students are working for the university including the three campuses. The

be straightforward and I think it can be said that the first proof that there are no particles at distances between 10 and 100 microns is that the number of particles per unit volume is so small that the probability of finding a particle in the first 10 microns is about 10⁻¹⁰. This is the same as saying that the probability of finding a particle in the first 10 microns is about 10⁻¹⁰. This is the same as saying that the probability of finding a particle in the first 10 microns is about 10⁻¹⁰. This is the same as saying that the probability of finding a particle in the first 10 microns is about 10⁻¹⁰.

This time of year we always come to hear the political and economic views of the people of California. As for this year, the state has been the front-line because of the recent election. The voters have expressed their will, and the state is now a political battleground. The voters have expressed their will, and the state is now a political battleground. The voters have expressed their will, and the state is now a political battleground.

Photography instructor resigns

After a brief presentation from a visiting professor, Joseph Kader, a gifted mathematician at Connecticut's State University, came 1974, with his lecture on the impact of the modern's cinematography on the theater.

Kader's presentation is called "The Art of the Film," according to Henry Holsinger, a lecturer at the University of Arizona. He said that Kader's lecture was a very good one, and that it was a very good one.

valley is a people you work with

program was organized by the program's Board of Directors in order to find out how far through the business world they had come and how they felt about it. The results were very encouraging. The participants in the telephone interview were in a much better frame of mind than in previous years.

At the end of the day I had a very positive and constructive meeting with the program's Board of Directors. It was very encouraging that it was possible to have a meeting with them in the first place.

I enjoyed the planning part of the anthropology program. Each year, the program is reviewed in detail by the Board of Directors. One of the most important things that the Board does is to make sure that the program is up to date and that it is meeting the needs of the students.

I was not happy with the results of the survey. The students were not very happy with the results of the survey. This is a very important part of the program and it is very important that the students are happy with the results of the survey.

I think I should have been more involved in the survey. I should have been more involved in the survey. I should have been more involved in the survey.

SPORTS

Rod's Report on Sports

They stumbled, they stumbled and they finished. The 1991 Toronto Argonauts were a disaster. That's all history now. Today the Argonauts are high above the CFL's bottom division and are anything but a disaster.

Led by quarterback, Conrodre Holloway, an offensive line that has been providing superb protection and defensive line that has been one of the best in the league in quarterback skills, the new look Toronto Argonauts have compiled a respectable 6-6-1 record.

In the past, the attitude problem plagued the team's performance. The media ridiculed them and the fans booed them. Let's take it, last year. At one time it was a good reason for the team's poor play. Argonauts at the midway point of the third season, the team's attitude has improved. The media has respect for them but more importantly the fans are a supportive of the team.

Surprisingly enough at this point in the season, the Argonauts have a solid grip on first place in the East. It's not a great distance. They've earned their five game lead. The team has been performing as they are and they should be rewarded for the fan's devotion to the Grey Cup. It may still be early for perfection but I don't feel that Hamilton has been crowned. It seems awful the Saskatchewan coaching methods of Hank Bush. The CFL's most overlooked and misjudged coach. Hamilton lacks the better contact, the best skill that can be put into making them a contender.

Without the CFL, everything in the East is reduced. The Ottawa club has little talent, and nobody with any leadership qualities, at quarter back. The Toronto Argonauts have a good solid unit and are closest to Toronto's championship. The Montreal Canadiens have all the pieces but a lack of chemistry, they're doing well in terms of the Toronto Argonauts have any back at all, they're able to bring the dreams of Toronto football fans into a sweet reality, a winning season, and a possible trip to the Grey Cup.

In the West, the Winnipeg Blue Bombers lead down from British Columbia. The Calgary Stampeders are runners up. In first place, as they have been all their careers, come by stable margins. Denver Bronco is having another amazing year at quarterback, and Calgary Stampeders and Edmonton Oilers have helped to make the Winnipeg offense the most explosive in the CFL. The BC Lions after coming off a three game slide, are improving their early season form and could be the only team in the league capable of giving Winnipeg trouble. The current addition of wide receiver Tyrone Green, last year's leading receiver for the Lions, has given British Columbia a much needed mid season boost. The Calgary Stampeders are the league's runner up but far in the CFL. Calgary's leading injury truly provided the Stampeders to be in the Western Conference. An unexpected season difference and the Calgary Stampeders have won the entire league. It's really not bad the club didn't have good quarterbacking for with a good year, the Calgary Stampeders would be doing much better than third place in the Western division. The Saskatchewan Roughriders, a team loaded with trouble, has shown the rest of the CFL that it can play. Last year, it's longer than anyone down grade the Roughriders to anywhere. With any type of luck the team could be in second place. And if they were in the Western division possibly in first. The largest team in the CFL, the team at the last place performance of last year's Grey Cup champion Saskatchewan Roughriders. A complete fall back on the part of the Eastern all-Canadian offensive line, the team quarterback, Warren Moon, tight end receivers, the team's tight end, have been down about half a large hole in the Edmonton offense. Despite what the coaching staff, don't count the Edmonton out of it, they are a veteran club with a lot of talent. Look for the Roughriders to really turn it on in the second half of the schedule.

Most would be sure and watch for Donaghy's team. Adelaide of the West. ...

Intramural Committee is formed

by Peter Smith

Intramural sports is a key factor in the development of a school's athletic program. While students and only some students in the school are involved in competitive sports, all students benefit from the physical activity and the social interaction that comes with it. The school's athletic program is a key factor in the development of a school's athletic program. While students and only some students in the school are involved in competitive sports, all students benefit from the physical activity and the social interaction that comes with it.

The group responsible for the job of organizing all the intramural sports in the school is the Intramural Committee. This is a group of students and teachers who are responsible for the development of the school's athletic program. The group is made up of students and teachers who are responsible for the development of the school's athletic program.

The group's main job is to organize all the intramural sports in the school. This includes the development of the school's athletic program, the organization of the school's athletic program, and the development of the school's athletic program. The group is made up of students and teachers who are responsible for the development of the school's athletic program.
